Sonoma To Oppose Water Move

James F. Tate Is Named To Succeed Late City Marshal

Dr. A. M. Thomson Stricken And Rushed To S. F. Hospital

CITY TRUSTEES CHOOSE NEW PEACE OFFICER

Well Known Business Man Called To Important Civic Post and Takes Office Monday.

James F. Tate, well known local business man and retired farmer, was named city marshal Tuesday night at a special meeting called by the city trustees to fill the vacancy caused by the death of the late James H. Albertson.

The choice of Mr. Tate was unanimous. It was a case of the office seeking the man. Last Sunday morning a committee waited on Mr. Tate and tendered him the position. It was explained that the city marshal's job was to be put on the new salary basis of $100 per month, with no fees. The deceased city marshal received $25 per month salary and fees from the collection of various licenses and taxes. Mr. Tate accepted the position at the $100 salary, agreeing to do all work in connection with the office to the best of his ability.

The new appointee is widely known in Sonoma Valley, where he has lived for many years. After selling his ranch some time ago he accepted a position with the Sonoma Feed Store. He is well to do and owns a fine home on Second Street East.. The appointment is generally a popular one, as Tate is regarded as an efficient and conscientious man.

There were a number of applicants for the office of city marshal. Among those rumored to have been after the plum were J. H .Murray, E. Farris and Sam Lewis.

Miss Mildred Grainger of San Diego has been the guest this week of Mrs. Martha Cowgill at her attractive home east of town. Miss Grainger has been doing public health work in the Imperial Valley and is enjoying a needed rest.

DR. SPRAGUE MAKES LOAN TO OLD MISSION

A collection of relics from the Philippines, gathered during the Spanish-American war by Dr. Fred Sprague, who saw service in the campaign of 1898, has been loaned to the Sonoma Mission collection. The relics include old weapons of Spain, a sword dated 1790, crude weapons and implements of the natives, including a bow and arrow, spears, etc.

The collection is an interesting one and the doctor's son, Everett Sprague of Berkeley, who has been vacationing here, secured the doctor's consent to loan the relics to the Mission. The collection also includes snowshoes and canoe paddles from Alaska.

RETUSNS FROM TRAINING CAMP

William Duffin returned Thursday evening from the Military Training Camp at Del Monte and reports a fine trip and splendid experience along military lines.

James Phelan Should Know This Pioneer

Ex-Senator Phelan of San Francisco, who has been "getting his" from the drys for criticizing the efforts of busybodies to close up famous San Francisco restaurants before the Diamond Jubilee, should meet Ed Steiger, 89, of Agua Caliente. Mr. Steiger understands the spirit of old San Francisco, for he was a waiter at the famous Maison Doree in 1864. There was not a thought of prohibition in those days declares the retired Sonoma vineyardist, and the present day restaurants at their best are poor imitations of Milli and Good's famous place on Washington street, and other rendezvous of epicures.

GEN. PERSIFER SMITH LANDMARK CEREMONY

Tomorrow, there will be simple but impressive ceremonies at the M. Schweitzer ranch, when a marker commemorating the ownership of the property by General Persifer Smith, will be placed by the officers of the Grand Parlor of the Native Sons of the Golden West. The usual wooden sign will be set up, to be replaced later by a copper plate.

The present owners of the property, Mr. and Mrs. M. Schweitzer of San Francisco, will be host and hostess to the official party and a number of guests. Among the distinguished party will be Mrs. Julius Kahn, of San Francisco, Congressional representative at Washington, D. C., Congressman and Mrs. C .F. Lea, Lewis H. Byington of San Francisco, Senator Slater of Santa Rosa, Captain Virgil Butts of Santa Rosa, Mrs. R. J. Snyder and Mr. and Mrs. Robert P. Hill of Eldridge. Mr. Hill's relative, the late Major Beck, once owned the historic ground, having bought the ranch after General Smith left California.

The General, who had charge of the Sonoma barracks in the forties, was suddenly called East by the War Department and gave power of attorney to three fellow army officers to dispose of the land, which had been sold to him by General Vallejo for $1000. Major Beck bought the ranch for $12,000. It afterwards became the property of William Swift, uncle of Mrs. R. J. Snyder. Swift died, leaving it to his brother, Captain Granville Swift, who built the stately stone mansion still standing, and of late years handsomely remodeled by Mr. and Mrs. Schweitzer, who acquired it for a country home.

ESTATE IN PROBATE IS WORTH $37,638

The estate of the late G. Sorini of Sonoma is valued at $37,638.73, according to an inventory filed in the superior court at Santa Rosa this week. Included in the property are 10 parcels of land in and near Sonoma, appraised at $17,800 and 166,736 gallons of wine, worth $9226.12, according to the inventory made by Donald Geary, J. Murray and E. Chiodi. C. W. Anderson is attorney for the estate.

Railroad Commission Bares Plan To Consolidate Three Water Concerns

Like Banquo's ghost, the old Sonoma Valley Light and Water Company will not down, but bobs up serenely, this time in a move to be consolidated with the Sonoma City Water Works and the Sonoma Vista Water Company under the name of the Sonoma Water and Irrigation Company.

The Sonoma Valley Water, Light and Power Company which will be remembered as the old Chester-O'-Brien project, was down but not out, so it seems, for in a previous move to consolidate the plan was quashed only now to be revived by an order of the State Railroad Commission, which has granted a rehearing of the application of promoters of a triangle deal whereby the El Verano concern would consolidate with the Emparan water works and the plant of the Sonoma Vista Water Company, and sell out to the promoters of the Sonoma Water and Irrigation Company. The latter concern asks permission to issue $100,000 preferred stock and $50,000 common stock for the purpose of purchase and consolidation. The stock would be sold to put over the water deal in Sonoma Valley. A hearing on the application has been set for August 27th, at 10 a. m., at the city hall here before Examiner Frankhauser, of the Railroad Commission.

The merger will be opposed by the City of Sonoma, whose trustees on Wednesday night of this week unanimously passed the following resolution:

"Resolved: That the Board of Trustees of the City of Sonoma hereby goes on record as opposing the contemplated merger of the Sonoma City Water Works Company, the Sonoma Valley Water, Light and Power Company and the Sonoma Vista Water Company."

The resolution was introduced by Trustee Jep Valente and seconded by Trustee Ed Lindley.

The properties sought to be consolidated consist of two going concerns, the little Sonoma Vista plant the Sonoma Water Works, owned by the Vallejo heirs, and the defunct El Verano concern. The Sonoma source is the natural spring, Lachryma Montis, whose supply yields the finest water in California. The present supply is no more than adequate for the present needs of this city and the trustees are loathe to share the water with outside companies, whose supply is nil, or problematic. Further grounds for Sonoma's opposition will be brought out by the city attorney at the hearing next Thursday.

It has been known for some time past that the Vallejo heirs were anxious to make some deal whereby they would be relieved of demands for extension of service and other improvements involving expenditures of capital which was not available.

Automobile Accidents Of The Past Week

The Jinx was abroad in Sonoma Valley the past week and dogged the path of many motorists. On Friday night of last week as Emmet Mullen of El Verano was crossing Fifth Street West in his new Essex coach his car was struck by a Ford driven by Mrs. Irving Brusky, who was turning in from Fifth Street. Neither motorist saw the other until too late. Mullen's car was considerably damaged by the collision.

Saturday night there were two accidents during the late hours of the evening, with remarkable escapes from serious injury. Harold Prestwood and Miss Lola Adams, who were in Prestwood's Ford coupe, almost had a collision near the Woodleaf store with Ernest Figone and Tony Barracchi, whose car skidded following the near accident and overturned. Barracchi was unhurt, but Figone when extricated from under the Chevrolet coupe, had been rendered unconscious and did not come to until Dr. Thomson applied restoratives. The top was cut from the wrecked car as clean as thought a knife had done the job.

The same night a Moon car belonging to two young men who had been guests of James Kearney, left the road near the Baccala corner, smashed through a fence and came to a stop in the Curtin vineyard. The machine did not overturn and the occupants were unhurt. They had not seen the curve in the highway until on their way to the vineyard. The Moon was undamaged, backed up, snorted, leaped a four foot embankment back on to the road and proceeded on its way to San Francisco.

The Ford car of Mr. Weirick and a Chandler touring car were in a collision at the intersection of Second Street East and Napa street this week, Weirick's car being badly damaged. No one was hurt.

LAST RITES FOR CITY MARSHAL ALBERTSON

The remains of City Marshal James H. Albertson were taken to San Francisco by automobile last Saturday morning and cremated at Mt. Olivet.

At the services here in Odd Fellows' Hall the day previous sincere and beautiful tribute was paid deceased by Rev. S. E. Crowe, of the Sonoma Methodist church, whose text was "The Master Said, 'By Their Fruits Ye Shall Know Them.'" The closing words of Mr. Crowe's eulogy was "well done, thou good and faithful servant."

ADVERTISE SALE OF MERRIAM PROPERTY

The Central National Bank of Oakland, through its attorneys, Boyer & Havens, are advertising the sale of the Emma Merriam ranch at Schellville, of 475.34 acres. It is to be sold at private sale September 8th.

Let Them Have It Hot And Heavy

Vandals, supposed to be campers, paid a visit to the Cloverdale ranches of S. M. Read and the Ginnicchini Brothers the fore part of last week, destroying and packing off produce. On the Read ranch they dug up three sacks of potatoes, picking out the larger ones and throwing the smaller ones aside. Not satisfied with helping themselves to watermelons, they kicked to pieces some 30 or 40 melons on both ranches. This is carrying things pretty far, and it is intimated that a repetition of this act will be attended to by a charge of buckshot from the owners of the ranches.

WITHDRAWS FROM THE SORINI CASE

Public Administrator Frank H. Phillips has withdrawn from the Sorini estate, which he sought to administer after conferences with the widow and creditors of the late G. Sorini. It was at their solicitations he says, that he identified himself with the case and he filed his petition to administer the affairs in good faith, believing that he could be of service to all parties concerned. The widow conferred with him on several occasions at his office in Petaluma and went so far as to dismiss her attorney in San Francisco.

After Dr. Phillips had gone into court and formally asked to be appointed administrator, the widow changed her mind and employed another San Francisco attorney and protested the public administrator's entrance into the case. Dr. Phillips despite the continued solicitation of a number of creditors that he act, decided then to withdraw. The public administrator advised the widow that he was retiring in the interest of harmony and had only been actuated by the desire to be of service in settling up the affairs of the late capitalist. Mrs. Sorini was therefore named administratrix of the estate.

WILL SHERMAN GETS A FINE JOB

William Sherman, old time Sonoma boy, and more recently head of the Masonic Lodges of California, has been named president of the State Board of Harbor Commissioners by Governor Richardson. He succeeds Charles H. Spear, retired.

Sherman rendered fine service during the war, when he was head of refrigeration operations for the army commissary department. He has been an official of the Merchants' Ice and Cold Storage Company.

The new position carries a salary of $5000 per year.

It is reported that a recent romantic summer courtship and marriage has gone on the rocks, and that Mr. and Mrs. Jerry Manning (Beatrice Boyd) have separated. The bride was a high school girl and met Manning at the Springs, where both were employed.

PROMINENT SONOMA PHYSICIAN SERIOUSLY ILL IN SAN FRANCISCO

Operation Today For Trouble With Which Local Doctor Has Suffered For Some Time.

Dr. Allan M. Thomson, prominent Sonoma county physician and who for the past 25 years has been practicing in Sonoma Valley, was taken to the St. Francis Hospital, in San Francisco, in an ambulance Wednesday evening, following a serious illness of several days. He had developed a temperature of 105 degrees and the attending physician, Dr. Bogel, of Santa Rosa, and Dr. Allen K. McGrath, of Sonoma, decided that it was best that the patient be removed to the St. Francis Hospital, where the necessity of an operation could be determined.

Dr. Thomson had been suffering intensely and his case was diagnosed as gall stones. He had similar trouble previously and fought off this attack until he was in a critical condition. His immense practice and demands upon his time left little opportunity for him to minister to his own needs, but finally he had to give up and for several days prior to going to the hospital had been confined to his bed.

Dr. Thomson has a legion of friends who will await anxiously news from the hospital and hope for his speedy recovery. He was accompanied to San Francisco by his wife and daughter, Celia.

The doctor's illness on the eve of the wedding of his only daughter is particularly distressing. Miss Thomson is planning to be married next month.

Word was received here yesterday that Dr. Thomson is to be operated upon this morning (Saturday) at 10 o'clock, at the St. Francis Hospital.

EL VERANO NEWS

By ARCHIBALD McKIVER

One way of occupying spare time was shown a few days ago by V. T. Shattock, who is with the water service department of the S. P. Shattock was in El Verano with his outfit car making alterations to the company's pumping plant and during his stay a number of people had the opportunity of seeing a miniature railroad engine switch and haul a string of miniature cars along tracks laid inside the outfit car. This small railroad was built by Shattock and is the result of about two years of spare time work. The railroad system is built to the scale of one-half inch to the foot. The engine is of consolidated type with a pair of leading pony wheels and eight drivers. A Vanderbilt type of tender is attached, making a total length of 37 inches, the height being eight inches. The engine runs by steam at a working pressure of 60 pounds per square inch, generated by an alcohol burner in the fire-box. It is fitted with a steam pressure gauge, a water gauge, blower, pop valve, whistle, throttle and reverse gear, the latter being correct Walchaert patternfl Feed water can be pumped into the engine when under pressure by means of a small hand pump. There are also four box cars, a tank car, a flat car, a gravel car, and caboose, all built to scale, with automatic couplers, the whole being numbered and painted in colors as in Southern Pacific practice.

INDEX-TRIBUNE HAS A BIRTHDAY TODAY

This is the forty-eighth birthday of the Sonoma Index-Tribune, and the newspaper is proud to be progressing along with Sonoma Valley, for whose betterment and welfare we have striven these many years. It is a satisfaction to review the files of the paper and to find that so much has come to pass which we have predicted and advocated. To be the staunch and loyal friend of Sonoma Valley and its people has been the intent of the Index-Tribune since its foundation. We pledge continued co-operation with agencies whose objective is to upbuild this historic and beautiful section, to develop its resources and make it better known. To serve the public and to continue to be a public utility, to promote harmony and tolerance, to develop public spirit and to foster the best citizenship among our people, these are a few of the objectives of your newspaper by which we hope to continue to merit your patronage and support.

William Allen White, noted editor, recently said:

"A newspaper certainly is connected with the public interest as much as the street car, the telephone or the gas plant and all the other municipal utilities. An editor is really a trustee, entitled to his profits if they are clean and decent, to the fullest extent that he may make them, but not entitled to make his profits at the community's loss. Unless he can give the public some valuable thing—information, guidance or entertainment—he has no right to his profits. A newspaper is certainly a public utility."

CAN THE MOVIES END WAR?

The moving picture industry may go down in history as the greatest benefactor of all time if its effort to bring war into disrepute through vivid presentation of war's horrors is a success. A contract is being entered into by a great film concern and a man conversant with the close-up experience of war to write a film play telling truthfully the frightful story of bloodshed, sacrifice and barbarity. This picture will be filmed so accurately and truthfully that the public will recoil from the present uncivilized means of settling world disputes and will find other means to settle their differences, outlawing war for all time. If civilized nations would be so affected and could be educated or awakened by the moving picture to end war, what a magnificent accomplishment it would be.

The pen has not as yet been mightier than the sword in the hour of crisis, but who knows but that if war is visualized sufficiently horrible all its glamor will disappear and the gaudy trappings of Army and Navy will no longer lead enthusiastic youth to answer the call to arms. There would also be the more serious consideration of disarmament to the point where real police power would be the only objective of a combined entente with armed and mutual compact to hold in check the uncivilized believers in war.

Who knows, the effect of a strong film picture might even bring home to the savage the folly of war and its aftermath? It is hard to break down barriers of language and to educate primitive people, but perhaps the moving picture will tell the story in a way that will make war less attractive, even to those whose blood lust is now satiated only by fierce combats, and whose primitive appetites have only been satisfied by bloodshed and force.

War has so long been idealized that its glamor clings. Perhaps the film world will make our real world sit up and take notice. If George Bernard Shaw is right, however, it might take a powerful arraignment of war to set our Americas against it, although we believe that the close-up our veterans had of it overseas was considerable of an antidote. Shaw, matchless English cynic, lately said:

"Americans at large rushed to the front because they wanted to fight, to indulge in virtuous indignation, to see the Old World, to escape from their homes and have adventures of all sorts, to strike a blow for their ideals and to prove to themselves and others that they were not cowards."

If this be so, we might do it all over again unless organized against war as a means to end disputes.

TAXES AND A FICKLE PUBLIC

The astonishing fact is brought out by statistics of the National Industrial Conference Board and the California Taxation Improvement Association that the average per capita tax of the national per capita income is 11.5 per cent, while in California the tax is 21.4 per cent, almost twice as much.

It is little wonder that the Supervisors of Sonoma County made an effort to heed the Grange warning on school expenditures and cut this year's high school allotment slightly. Now there is an awful clamor because Sonoma County high schools have already contracted for a lot of expenditures which they cannot pay if the Supervisors do not "come through" with more money. A lot of taxpayers decry expenditures, clamor for lower taxes and then when they get a reduction, back right in and join those who do not want the cut, but want education at any cost, regardless of who pays.

It takes a lot of backbone nowadays to sit tight on expenditures, but that is what should be done. The country was a lot better off when people had to figure out how they are going to make ends meets and had to wait for a lot of the extras which are now so easily obtained by a raise in taxes or by slapping on big bond issues.

SACRAMENTAL WINE PERMIT IS ISSUED

Grace Brothers, of Santa Rosa, have received a permit from the federal officials to make port and sherry wine for medicinal and sacramental purposes at the old De Turk wniery in Santa Rosa. Some of the cooperage in the big building was recently removed for the locating there of an ice making plant which has been in operation for some time. During the fruit season fruit is iced daily at this plant.

IS A PEACOCK *ashamed of* HIS LEGS?

IF not, why, when he looks at his legs, does he always lower his tail? Medieval nature-fakers puzzled over this and other entertaining superstitions. Today we know better, and we are fast getting away from other popular superstitions, as, for instance, that there is something mysteriously "better" about "eastern" motor oils merely because they cost more and are made in the east.

Superstitions Pass—the Facts Prove Zerolene's Superiority

As a matter of fact, there is no better motor oil than Zerolene, which is produced right here on the Pacific Coast from selected western naphthenic base crude, refined by this Company's patented high-vacuum process, and submitted to 15 positive checks for quality.

Experienced Automobile Men Disregard Oil Superstition

Experienced automobile men pay no tribute to superstition—they gauge a lubricant not by price or where it comes from—but by car performance and low maintenance costs. Zerolene is not only successfully lubricating *more* cars in the Pacific Coast states than any other oil *made;*—it is used and recommended by automobile agencies and big users of such celebrated makes as Cadillac, Chrysler, Dodge, Lincoln, Packard, Pierce-Arrow, who know that true motor oil economy is not a matter of price per quart, but what the lubricant *does.*

Less Carbon—More Power

Zerolene will improve the gasoline mileage, reduce carbon removal operations and lengthen the life of your car. Why pay tribute to a superstition? Insist on Zerolene—ask for it by *name.*

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene motor oil has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on Zerolene—even if it does cost less

FRANCHISE GRANTED FOR A NEW FERRY

A franchise for an automobile ferry between San Francisco and Berkeley was granted Monday by unanimous vote of the Board of Supervisors of San Francisco to the Golden Gate Ferry Company. This company already has a 50 year lease from the City of Berkeley for a pier at the foot of University avenue.

A. O. Stewart, president of the Golden Gate Company, promised, upon receiving the franchise, to have a ferry service in operation by May 1st of next year. The only authorization as yet unsecured is a certificate of public convenience from the State Railroad Commission.

Three new boats are to be built in San Francisco for the service. A pier will be built from the tide water line in Berkeley to a point near the terminus of the Key Route pier. The ferry station at the foot of Hyde street will be enlarged to provide additional slips.

"We will shorten the time from San Francisco to Berkeley," said Stewart. "We are planning a 15 minute service. In advance we have agreed to a maximum rate of 75 cents per automobile. We shall spend over $2,500,000 in establishing this new service across the bay."

A clause in the San Francisco franchise provides that the ferry company must build a pier extension at the foot of Hyde street to avoid interference with the aquatic park at the foot of Van Ness avenue. The pier will provide additional parking space for automobiles waiting for the ferry. The extension will be begun within 60 days and will serve also to improve service to Sausalito.

DODGE OWNERS TO HAVE PICNIC

A great treat is in store for all owners of Dodge Brothers cars and Graham Brothers trucks in Sonoma, Lake Napa, and Mendocino counties.

J. Henry Williams local territorial dealer for this popular line of cars and trucks, is busy mailing out over 1200 invitations for a big barbecue and picnic to be held at Mark West Springs on Sunday, September 13th.

There will be races, games, swimming and dancing and a big barbecue. Committees are busily arranging all the many details and the picnic gives promise of going over big.

Every owner of a Dodge Brothers car or truck will receive an invitation and no doubt the capacity of the resort will be severely taxed to accommodate all the owners in Mr. Williams' territory. Full details will be given at a later date.

Lower prices on Dodge Brothers motor cars have been announced, effective Monday.

A letter was received from Luva Lehnert, sanitary engineer of the State Board of Health, recommending that the sum of $12,500 to $13,000 be asked for the first year, but the directors decided to ask for the sum of $11,000, which means an approximate tax of 5 cents.

Mrs. Fred J. Hansen went to San Francisco Thursday to visit her brother-in-law and sister, Mr. and Mrs. Vic Beretta. Mr. Beretta has been quite ill for some time.

IT ONCE HAD MISSION; SO WHY NOT NOW?

Editor, Index-Tribune:

Last Sunday I visited the Mission San Francisco de Solano, Sonoma's precious landmark, and was taken by suprise to find the old fire engine almost at the door of the old church. It appeared very incongruous and out of place to see this abandoned contraption occupying such a prominent place in front of the sacred edifice.

It is desirable that we should have a museum at the Mission, there to preserve antiques and relics of historic Sonoma county, but why drag the fire engine in? It had better been left at the city hall if a more suitable place cannot be found for it. We approach the old Mission with reverence—or should—but here we are from the sublime to the ridiculous as the old engine obtrudes itself upon us before we cross the threshold of the sacred edifice.

BARN DANCE FOR THE GLEN ELLEN FIRE DEPT.

FOR THIRTY-FIVE YEARS BUSINESS TRAINING HAS BROUGHT REAL SUCCESS TO PRACTICALLY EVERY GRADUATE

Having brought Success to its thousands of graduates during the past thirty-five years, "What has it in store for you today?" Will it bring you success, also?"

What it has done for others it can also do for you. Financial, social and moral success is based upon proper preparation in those elements of success that bring the comforts of and satisfy the desires of right living.

A business training meets those requirements more surely than anything else. It is almost impossible to find a business college graduate who is a failure. A knowledge of systematic accounting, accurate figuring, the fundamentals of commercial law, good English, and spelling, together with the ability to write well, places one far above the ordinary in both judgment and skill in the great field of successful business.

A knowledge of shorthand, typing, English, spelling, and the fundamentals of real office work places in the hands of a young lady the means not only of earning a respectable livelihood, but gives her an opportunity to secure those necessities and even luxuries that are never enjoyed by those who are untrained and know nothing of this field of usefulness.

We are enrolling students every day, and those who intend to be with us the coming term should make their applications at once, as we are limited in room and the prospects are that every seat will be filled at the opening on Monday, August 31st.

Friends of Healey look for him to cut the mustard this time, as he ran heavy last election. His valley friends will follow his campaign with interest and wish him success.

Mrs. Ed Benson and son of Agua Caliente are spending the week with friends in San Francisco.

Great excitement was caused Sunday among the large crowd of visitors at Agua Caliente Springs when a fire started in the pasture adjoining. Volunteer fire fighters made up of tourists and natives, quickly got the bucket and sack brigade in working order and after some time subdued the flames, which were fast creeping toward a large hay stack. The Boyes Springs fire department answered an S O S. call and were soon on the fighting line, after which the fire was soon under control. Chief W. Locarnini and Assistant Chief H. Ammann of El Verano on hearing the siren, made for the fire and rendered aid in suppressing the flames. A lighted cigarette is thought to have started the fire.

Pete Finnegan, New York City middleweight boxer, spent Sunday at the Tavern. Finnegan, under the management of Louis Parente, is going big in San Francisco, and as fast as Louis brings them up the New Yorker sends them down for the fatal count of ten. Finnegan has never yet kissed the canvas and has yet to get the K. O.

Paul Waldow, who has been the guest of the Henry Norrbom family, returned to San Francisco Sunday, to prepare for the opening of school.

Robert Dolan, veteran United Railways superintendent, of San Francisco, is on his annual visit to this city, registered at El Verano Villa.

P. J. Hanley, who has been here at his summer home for the benefit of his health, he having been a sufferer with stomach trouble for years, was takeen to San Francisco Sunday in an ambulance. Mr. Hanley is a restaurant owner in San Francisco.

The official S. P. scales doctor is making his annual inspection of scales on the Santa Rosa branch, being at El Verano Monday.

A carload of wheat was unloaded Sunday at Batto's warehouse No. 7, at El Verano's S. P. yards.

Mr. and Mrs. Frank Davidson were calling on the Gales Sunday, from Suisun. Mr. Davidson is a fruit buyer in the Suisun Valley for Rosenthal and Company.

S. P. Station Agent Martin of Kenwood was a visitor at Agua Caliente Springs Sunday.

Mr. and Mrs. Evans, who reside in San Francisco, were spending the week end at the Beach home, Sonoma Vista.

Harold Prestwood and E. Figone had a collision Saturday night on the highway at Boyes Springs. Both cars were damaged, but neither driver was hurt. Sunday night two motorists driving a Moon car, headed for San Francisco, miscalculated the Baccala curve and ran from the highway into the vineyard, tearing down the fence and uprooting many vines. The car and occupants escaped without injury. The men were traveling at a high rate of speed and thought the highway ran straight instead of turning toward Sonoma. Deputy Sheriff Ryan was on the scene, as was also a number of residents, who heard the car crash through the fence.

The famous Schellville bull dog, formerly owned by the late Jim Harrington, was expressed out of El Verano Tuesday morning to Washington, D. C. The dog will make the long trip in a boxed house.

Mrs. J. Ammann and son, Herbert, spent the first of the week with relatives in Guerneville.

H. Norrbom and son, Albert, were S. P. passengers for Oakland Tuesday morning, bringing home two new Chevrolet coupes, one for Frank McGill and one for H. J. Potter of Schellville. Another car was also delivered to F. Pilley of Fetters Springs by Mr. Norrbom.

Mr. and Mrs. Gunn, formerly Eva Nordwell, of this place, and children, Mrs. Nordwell and Mrs. Hoppe, all of San Francisco, were Sunday visitors at the Minkel home.

HIGH SCHOOLS TAX IS CUT FOR YEAR

Pointing out that the addition of more pupils in the high schools of Sonoma county has caused an increase in the cost of education, Louise Clark, county superintendent of schools, announces that the Board of Supervisors has decided to allow each high school $75 per pupil enrolled this year instead of $85 per pupil, the sum allowed last fiscal year.

The county has given each high school this sum per pupil in average daily attendance for many years and for a time gave as high as $100 per pupil. This change will affect the various high schools according to the number of pupils enrolled.

The following figures, showing the average daily attendance basis for the school year ending June 30, 1925, will be used to determine the funds to be given each high school this year:

Analy Union High	400
Santa Rosa High	832
Cloverdale Union High	56
Geyserville Union High	60
Healdsburg High	256
Petaluma High	629
Sonoma Valley Union High	161
Tomales Joint Union High	26
Calistoga Joint Union High	7
Total	2427

Sonoma county has 210 more pupils in average daily attendance in high schools than it had last year, Miss Clark announces. With this increased attendance, if the Board of Supervisors gave the $85 per pupil it would make a 3 1-2 cent raise in the tax rate. Instead of increasing the taxes, the rate per pupil has been cut.

With an enrollment of 2427 pupils, the high schools asked $206,295 as expenses for the year. Because of the cut in the rate, they will receive $182,025 with which to carry on the work for the year.

This cut in the rate per pupil is expected to work a hardship on some of the Sonoma county schools, as they have already prepared their budgets for the coming year on a basis of $85 per pupil. In the Santa Rosa high school district it will amount to a cut of the high school funds of over $8000, it is said, while in Petaluma the cut is near the $6500 mark.

Unless the supervisors can be induced to reconsider their action and give the amount that had been expected, a part of the educational program in various schools may have to be eliminated. It is said that in the Petaluma district the free transportation of rural pupils will be done away with if the rule is enforced, as there will not be enough funds to carry on the transportation work. No intimation of what will be done to economize in the Santa Rosa high school has been made by officials of that institution.

"Next Year I'll Take a Real Vacation"

Maybe you are one of those who have made this pledge, but have not worked out a way to keep it when the time comes.

You may have had a good time this year, but perhaps next season would like to go farther away or have the money to provide greater enjoyment at a place you have already visited.

Start now, by adding a small amount to your regular Mercantile Savings Account. It's surprising how easy it is to save more money when you have the proper incentive. When next season comes along you will have enough to go to the places you like and do the things you desire.

NEW GRADES FOR GRAPE CROP MADE

New grades governing the marketing of California's 1925 grape crop were announced recently by the State Department of Agriculture. The grades are national trand standards and are recognized by the United States Department of Agriculture as well as the State Department.

A bulletin issued by the department explaining the changes in the 1925 standard says:

"The 1925 grades contain several important revisions over those recommended last season. Principal among those revisions are the tightening of the requirements on the color for table grapes, especially on red grapes and white grapes.

"Distinct amber is required on all white grapes before picking. Raisining in juice grapes is also restricted. A total tolerance of 15 per cent raisining is allowed, but of this amount only 5 per cent of completely cured berries will be permitted."

The members of the old guilds were bound by oath of brotherliness to uphold the standard of the profession and to pass down from generation to generation the treasured secrets of their craft.

PACIFIC GAS AND ELECTRIC COMPANY — PACIFIC COURTEOUS CONTINUOUS SERVICE
What to do if all lights go out

IF your neighbor has lights, it probably means that one or both of your main fuses have burned out. The fuses are usually located near the Electric Meter.

Open the main switch and unscrew the fuse and remove it from the socket. As it is convenient to do this yourself, keep a supply of fuses on hand, for this will prevent your being without light while waiting for a service man or electrician.

After you have replaced a fuse, if it blows again at once, call an electrician. You can buy fuses at nearly all electrical and hardware stores. In cases of emergency where you are unable to get a fuse quickly, call the P. G. and E. service man. No charge is made for the service man's time—only the fuse is charged for.

SUMMIT HOTEL MAY NOT BE REBUILT

Owing to the question of water rights, the new hotel at Summit which was contemplated by Messrs. Batto and Joe Andrieux, to replace the one destroyed by fire, may not be rebuilt. The corporation which controls the water supply in that country will not guarantee water for more than a year at a time. As the investment would be a big one the Sonoma capitalists are not keen to take up the project.

A general store and gasoline station is now being conducted. The Andrieux also have the post office at Summit.

FOUNTAIN GROVE GRAPE CROP BRINGS $50,000

Sale of the entire crop of grapes of the Fountain Grove vineyards, near Santa Rosa, to the Tracy Waldron Fruit Company, of San Francisco, at a price said to be near $50,000, has been made public. The yield is estimated at 700 tons by George King, who, acting for Kanaye Nagasawa, owner of the vineyard, signed the contract for sale. There were many bidders for the grapes, considered among the best in the county.

Thus far few contracts for grapes have been reported, most of the growers preferring to wait for higher offers for their crop.

That there will be a big demand this fall for grapes, and fancy prices paid for the most sought after varieties is certain.

Fulton Dal Porto and wife are leaving for San Francisco, where Mr. Dal Porto has accepted a position. He is a millman and has been the popular employee at the A. W. Adler furniture factory here.
